Half a day in Pérouges & Dombes

Guided tour and lunch in the medieval village

A beautiful tour in the countryside to discover a flat land full of ponds and marshes, looking like mirrors in a green area where grow canola and corn.

Many gamebirds, swans, storks, herons are seen in this region where lots of Kings of France and Lords were hunting in the Middle Ages.

Let's take the road to with PEROUGES, an amazing protected village belonging to the Middle Ages, through typical Villages with local cobble-stone from the River called "le Rhône".

- Guided tour of the village perched on its rock, the church, the olds inns, the rich houses in former times belonging to silk and hemp merchants...
- Then, nice lunch in a local restaurant belonging to the 14 th Century. Typical meal from the region, famous « Poulet de Bresse » and the « galette de Pérouges », the dessert of the village.

Way back to Lyon, after lunch.
